GTA Juniors : Part of Canada’s Present & Future (Part 8)

“ Spotlight “ on Evgeni Miller !

Introduction

This is the eighth article in the series highlighting GTA Juniors. Today we review the chess career of 16 year old Evgeni Miller, and 4 of his games.

Evgeni’s Progress and Successes

Evgeni was born in Moscow, Russia on July 2, 1985. He was taught how to move the pieces when he was three. Then he and his family moved to Haifa, Israel, and at 6 years old, started taking formal training in chess. But his actual first rated tournament did not come until he was about 11 years old, when he played 3rd board in the Israel team championship, in a regional league. One of his most memorable experiences before coming to Canada was scoring 6/9 pts. in a Budapest, Hungary “ First Saturday “ tournament, where he first obtained his FIDE rating.

Evgeni obtained his first ratings in Canada in April, 2000. He first achieved an expert Active rating of 2154. Then a few weeks later, he got a regular expert rating of 2098. His rating stayed in the 2000’s for a year, and then in April, 2001, in the Toronto Open, he moved his rating over 2100 to 2133. At the Sept. 2001 Toronto Macedonian Labour Day Open, he won the Under 2200 section. Then in October, 2001, at the Toronto Thanksgiving Day tournament, he achieved his master rating of 2223 (his peak rating so far), with a score of 4/6 pts. in the Open section. He is currently rated 2202.

(one block east of Woodbine Ave./Cosburn Ave. intersection, in old East York)

easy TTC access – 5 min. bus ride from either Woodbine Subway Stn. or Main St. Subway Stn.

When players from the lower age groups are removed, Evgeni stands # 5 on the list of top Canadian juniors under 18 years old (# 1 is our newest International Master, Stephen Glinert).

Evgeni does have as well, international experience representing Canada. In October 2001, he went to Oropesa del Mar, Spain, to the FIDE World Youth Chess Festival championships, as part of Canada's Under 16 years old team. He finished in the middle of his age group : 48th-58th out of 102 players.

Congratulations Evgeni, and we look forward to seeing your Master rating rise in the coming years !

On With the Games !

[**Note** :

SCTCN&V, as a service to its readers, attaches to the cover e-mail accompanying this newsletter:

1. a database in .pgn format (this Issue, EvgeniAnn.pgn) : It contains the annotated games in the text of this newsletter ! (There may be minor variations between this database and the newsletter, due to newsletter text amendments, after the databases were created.) You need only open the attachment, and spend a few minutes clicking through these interesting junior games, and the full annotations ! We make your life easier. Enjoy !

2. a second database (Evgeni.pgn) : It contains Evgeni's games, but unannotated.

The main purpose of this is that some readers prefer to first play the games over unannotated, and to annotate them themselves. Then they look at the database annotations (human & computer). The second reason we do this is to make the games easily available to those who may not have a chess program that uses a .pgn database, but do have a " chess game reader " (many are free off the internet).

P.S. : SCTCN&V Junior Database - we have the database of all junior games that have appeared in our series, since Jan. 1, 2002, annotated, in .pgn format. Simply contact the editor by e-mail, and request it if you would like it sent to you.]

Backgrounder

This is an SCTCN&V series on the top GTA juniors, such as Evgeni (We have previously featured Alina Sviridovitch, Hazel Smith, David Hier, Shiyam Thavandiran, Irakli Vadachkoriya, Nikolay Noritsyn and Mark Bluvshstein [note : last month, Alina, Irakli, Nikolay and Mark all won the CMA Ontario Chess Challenge finals for their grades, and go to the Canadian finals in Newfoundland later this month as part of the Ontario Team ! Congratulations.]). Unfortunately, we can only “ spotlight “ so many juniors in our series – some other deserving ones may not be reached. But we hope the highlighting of our GTA junior talent will encourage all juniors in the GTA to love the game, and continue to improve. We hope they all, and our adult readers, enjoy the series.

We are giving only a very short personal resume of the junior’s accomplishments. We prefer to let their games speak for them ! We’ve tried to choose an interesting collection of 4 games, that show their style, positional ability, tactical ability, etc..

And it shows the maturity of our juniors that they consent on occasion to have us use a game they LOST, when they had good wins to offer. They understand that a “ lost “ game is not necessarily by any means one of their “ bad “ games. And they agree in order to give the readers entertaining games to play over

We have done annotations, but we make no pretense to GM analysis. Yours truly (computer-enhanced), the odd volunteer, some juniors, some juniors’ victims, are merely annotating to make the games a bit more interesting reading. It is more to highlight something about the junior’s style, rather than to be the last word on theoretical analysis of the position . However, the annotations are of good quality ; we think you will notice this if you play the annotation lines over in the games database accompanying this newsletter; you might even pair off our human/computer annotations against you and your computer’s best efforts . We especially thank Evgeni for annotating each of his four games for this Issue.

We hope you are enjoying our line-up of junior games. We hope our series contributes to GTA juniors’ enjoyment of chess, and provides some encouragement for them to continue to improve their chess.

Scarborough CC Sponsors the “ Love of the Game “ June Weekend Tournament

World Chess Championship Reunification ? – May 6 Meeting, Prague, the Czech Republic

Yasser Seirawan got the reunification theme going with his “ fresh start “ proposal, whereby an Office of Commissioners would take over the running of the World

Championship from FIDE. On April 25, a partnership put forward a new proposal, incorporating features of the Seirwan proposal. One of the proponents is Einstein Group PLC, the company that bought BraingamesNetwork's contractual rights to a challenge match with 2000 BrainGamesNetwork Champion, Vladimir Kramnik (Russia). The other partner is a wealthy Syrian-born widow residing in Paris, France, who has become a chess patron, Ms. Nahed Ojeh . In summary, they propose a reunification match between, the FIDE Champion, Ruslan Pomomariov (Ukraine), and Kramnik. But each must face a challenge match to their title first. Interestingly, they have given Garry Kasparov (Russia), the highest-rated FIDE player, some priority in the FIDE side of the challenge. One suggestion is that there will be a preliminary match, and the winner will face Kasparov, for the right to be the challenger.

FIDE has responded positively in that FIDE President Kirsan Ilyumzinhov will be attending the meeting. He recently took full control of FIDE Commerce that has all the commercial rights to chess, and ended the marketing contract with Octagon Marketing, giving him sole control in any negotiations as far as FIDE is concerned.

We'll keep you posted as things develop.

The SCTCN&V “ Know Your Chess Players “ Contest

Do you recognize this world famous chess player ? (Answer in next Issue !)

[Answer to the identity of our female chess celebrity in our last Issue # 16, of April 15 – WGM Alexandra Kosteniuk, 2001 FIDE Women's World Chess Championship Runner-Up]

Gausdal, Norway Classics GM Tournament

14 year old GTA IM Mark Bluvshstein played in this 10-player round robin, which included 3 GM's and 3 IM's. Mark finished with a respectable 4/9 pts., defeating English GM Keith Arkell in the process. Good luck, Mark, in future competitions.

GTCL Holds 2002/3 Annual General Meeting

9 GTA stalwarts came out to start the new GTCL year off on the right foot : Bryan Lamb, President (formerly SCC rep.); Cesary Posylek, Vice-President (former Polonia CC rep.); Ismail Ibrahim, Secretary (former SCC Rep. – by proxy to Bob Armstrong); Wilf Ferner, Treasurer (former SCC Rep.); Mark Dutton, Communications Officer (formerly Dutton Chess Rep.); Larry Bevand (Toronto Chess 'N Math Association Rep.); Tony Cheron (Weston CC Rep.); Chris Field (Toronto Secondary School Chess League Rep.); David Cohen (Dutton Chess Club Rep. – by proxy to Mark Dutton).

Outgoing 2001/2 Board Meeting # 3

There were reports on the GTA tournaments in the past year. One item that got some discussion was the current tournament feature in Toronto of the lower sections subsidizing the prize fund of the top Open Section. It was contrasted with some Quebec tournaments, where each section has the same guaranteed prize fund, or the alternate method where all registration fees remain in the sections (as is being done in the N-P Chess Organizing " Love of the Game " tournament coming up at the end of the month). The meeting also drew up a tentative list of CFC Governor/ OCA Director nominees, for the new incoming Board to consider. The nominees were (not in any order) : Lamb, Posylek, Ferner, Dutton, David Gebhardt, Cohen, Cheron, Ari Mendrinos, Michael Dougherty, Peter Boross-Harmer. Bryan undertook to contact Ismail, and see if he wanted to be on the list, since he had been past Secretary of the GTCL and is active in Toronto chess.

2002/3 GTCL AGM

At the AGM part of the meeting, reports were given by the Executive officers present as to their activities in the past year, and any advice for the incoming Executive/ Board. An important issue that arose here was the Junior Scholarship Fund. It was determined that the current way of using the fund for 10-11 scholarships should be changed to there being some type of low income qualification, to see that the money was directed to talented juniors, who faced financial barriers in chess education or tournament play. CMA, who had stopped donating to the fund a year or so ago, over disagreements with certain board actions, indicated it was more than willing to again contribute to the fund, IF there was a satisfactory long-term plan was in place. And it indicated that it liked the idea of the scholarships incorporating a " bursary " type feature. It was decided that the new executive should be asked to strike a committee to work on this, and members suggested were Lamb, Dutton and Bevand.

The final part of the AGM was the election of Officers for the coming year. Elected were : President – David Cohen; Vice-President – Cesary Posylek; Secretary – vacant; Treasurer – Bryan Lamb; Director of Communications – Mark Dutton; Team Coordinator – David Gebhardt.

Incoming 2002/3 Board Meeting # 1

The upcoming tournaments through to December were discussed, and the fact that GTCL still had no bidders for its GTCL-sanctioned tournaments, as it didn't have the previous year. The topic came up of whether Dutton Chess could increase the maximum player cap that it currently is using, to accommodate more Toronto players. CMA indicated that there was vacant space on the same floor that was available to DC, if a reasonable rental could be agreed on. DC's problem was whether there actually were many more players who would play if it increased its space. Mark indicated he's usually only turning away about a half dozen players. But it was pointed out that many chess players decide to play at the last minute, and are willing to pay late fees, as happened in the 2001 Toronto Macedonian Labour Day tournament, where about 50 on-site registrants appeared, when there was not a cap, and late entries were possible. It was pointed out that this also brings its own problems of getting Rd. 1 started on time, etc. DC left open the possibility that if it got a sufficient number of advance entries a week before the tournament started, it might be feasible to rent the extra space to increase the maximum. But Mark advised he felt there were other matters to be considered that were negative, when he went beyond his 84 player maximum. The meeting then approved the CFC Governor/OCA Director nominee list proposed by the outgoing meeting, which will now go to the OCA AGM in Thunder Bay on the May Victoria Day weekend.

Scarborough " New Home " (Thurs.) Swiss '02

On Thurs., April 11, SCC played for the first time in its new home at Stan Wadlow Park Clubhouse in East York. We celebrated by starting round 1 of a brand new Swiss. 21 players registered for the event (though some have now switched to the Tues. night tournament). Round 2 of this tournament was Thurs. April 25 (we have to skip the third Thursday of each month since the room is already booked by the " Garden Club "). Rd 3 is May 2 . If you'd still like to play, come on out, and you can get byes for the first 2 rounds.

Scarborough " New Home " (Tues.) Swiss '02

We are now back to holding a regular slow time tournament on Tuesday evenings. Round 1 was on Tues., April 16. And in fact, at a meeting of the members on the prior Thurs., it was decided that the club would make this its major tournament night , since there is the problem for the Thurs. tournament of having to skip every third Thurs. of the month. So we expect many of the players who are only playing one evening a week, will switch from the Thurs. tournament, to the Tues. tournament. But the Thurs. night tournament will still be going strong. Round 5 of the Tuesday tournament is Tues., May 7.

Scarborough " New Home " (Sun.) Swiss '02

Unbelievable but true – after all SCC's comings and goings, and having to cancel our weekend Sunday tournament for the past while, it's again back on the rails at our new home. We have the site from 1:00 PM – 6:00 PM ! This allows us to go back to 40 moves/ 2 hrs. and Sudden Death/ 30 min., as we used to play. Round 1 was on Sunday, April 21 !! Round 3 will be on Sunday, May 5. If you still want to

play, and missed Rds. 1& 2, just come out and register, and you'll get " byes " for the missed rounds. So tell all your member friends (and other chess playing friends) that weekend chess IS BACK AT SCC on Sundays.
