Can. Olympiad Chess Teams Selection Problems – CFC Gives Decision

In the last Issue of SCTCN&V, the lead article outlined a number of illegalities that had occurred in the selection of three members of the teams : Yan Teplitsky (to the National team); and Dinara Khaziyeva and Nava Starr (to the Women's team). This led to Governors bringing points of order and motions before the CFC Executive and the Governors. The CFC President, Chris Mallon, made the final decision in the matter, and here is his e-mail decision :

“ To all Governors,

>

> Claims have been made publicly and one appeal was received by the

- > Executive concerning some issues with the selection of the Olympiad teams
- > which took place at the end of last year.
- >
- > Several Governors have proposed motions to uphold the selection of the
- > teams as they were picked. However given that there is no time to allow
- > for proper discussion and voting on such a motion, the Executive has the
- > power, under CFC Handbook Section 2, By-Law Number Two, Paragraph 11, the
- > Executive has the power to deal with issues relating to the qualification
- > of players to such an event.
- >
- > The Executive ruling concerning this was publicly published on March 18th
- > on the official CFC Discussion board for Governors. The appeal to change
- > the team selection was rejected mostly because so much time had passed
- > since the selection without any appeals. It is clear that this precedent
- > is still in force.
- >
- > I have thus decided to rule the proposed motions out of order as they are
- > unnecessary, supporting as they do the position already taken by the
- > Executive in accordance with the CFC Handbook. I would however like to
- > thank these Governors for their support.
- >
- > I would also like to encourage all Governors to give their full support to
- > our teams as they leave for Turin in a few weeks. I will also include in
- > the upcoming GL8 my recommendations concerning the Olympiad Regulations
- > and how to avoid these problems in the future, and I welcome any comments
- > the Governors might have concerning this as well.
- >
- > Sincerely,
- >
- > Christopher Mallon
- > President,
- > Chess Federation of Canada “

Although this decision is technical in nature, and does not deal substantially with the illegalities, the CFC Executive (and thus the Governors) have now legitimized the teams, and did not leave the matter at the bureaucratic level with the illegalities hanging in mid-air. We wish all the best to the teams in Turin !

Canadian Olympiad National Team

Unfortunately GM Dimitri Tyomkin has withdrawn from the team, and will now be replaced with Quebec junior, IM Thomas Roussel-Roozmon, the next player on the Olympiad Preliminary Selection Ratings List.
