Two Canadian GM's played in this top section:

1. GM **Mark Bluvshstein** , top FIDE-rated Canadian ( playing for Canada ), with a 2590

rating. He is ranked # 53 ( out of 87 ).

2. GM Thomas Roussel-Roozmon, rated 2500, and ranked # 79.

Mark finished with 50% ( 4.5/9 pts. ) and ranked # 53/86, equal to his starting rank. Thomas finished with 38% ( 2.5/9 pts. ) and ranked # 82/86, where he was initially ranked # 79.

In Rd. 1 Mark played the # 10 seed, young Russian GM Dmitry Andreikin.

Mark held his own for a long while, but then ran into a very nicely built up attack. Here is the game ( Annotations by Bob Armstrong, using Fritz ):

### Chess is Awesome

( Written and copyright 2011 by David Cohen )

Why play chess? Why teach chess? Why sponsor chess? Watch the new 90 second video 'Chess is Awesome' starring Ted Winick, President, Chess Institute of Canada; and friends Theadora, Joseph and Mary.

<http://www.chessinstitute.ca> (left side of screen, scroll down)

Executive Producer and Script: Ted Winick; Consultant: David Cohen; Director of Photography: Carlos Esteves. Copyright 2011 by Chess Institute of Canada.

The idea for this video has been simmering for a while. We knew we needed a video to make a pitch to corporations for sponsorship money for chess. Our role model is the video used to convince corporate Canada to fund the 2010 Vancouver Olympic Games.

You may have seen this video when it aired on the first day of the Olympics, one year ago.

Our idea came together when I noticed an article in the Toronto Star about a non-profit group called the Awesome Foundation. About 10 people get together every month. Each person throws \$100 into the pot. They then watch pitches for that money. Whatever they find to be an awesome idea, they give the full \$1,000 to for that month!

The sales pitch had to take the form of a 90 second video. Ted put together his ideas on why we should play and teach chess, and hence why we were worth sponsoring. He focused on kids and giving them the ability to make decisions for which they would be responsible.

On Tuesday, February 8, we gathered together for a three hour filming session. Carlos had already photographed one of Ted's chess sets. The blown up image of the black chess pieces was put up on a wall in the background. I noticed a floating head in the white space on the far left. Carlos obligingly cut most of it out, costing us the first piece in the row, a knight. After Carlos set up the camera and lighting, Ted went first with his rehearsed speeches. By the time school was out and the kids started arriving, Ted was done. Next, a parent talked wonderfully about how great chess had been for her daughter. Then, our first real snag: our cute kid got stage-fright and ran off!

Theadora was great - enthusiastic and natural, no mistakes. Joseph had to often re-do his part, but we got him through it, asking him to talk about what he knew: his competitive experience. Carlos played around with the angles, zooming in on a face, or making one chess piece, like the queen, stand out. Finally, we were done. But no - Mary wanted to say something! So, we put her on, and she was great. So great, we unfortunately ended up not using the parent's contribution.

Well, there you have it, the making of a video. I hope the Canadian chess community can use this video to convince sponsors to give our activities their support. Let us know what you think.

### **New FIDE-rated Local Players**

( by Erik Malmsten )

After the Canadian Open I published a list of local players who have started the process of obtaining a FIDE rating by scoring 1 out of 3. Of the 37 players, 12 now are FIDE rated!

Congrats to these players:

Robert Roller 2057f got the games he needed in the Hart House Reading Week Open.

Juliaan Posaratnanathan 1853f got his games in the December Holidays Open.

Mike Ivanov 1906f got his games in the Toronto Junior Championship.

Derick Joshua Twesigye 2129f, and Michael Song 2060f got their games in the Thanksgiving Open.

Dmitry Chernik 2060f got his games in the Thanksgiving and Holidays Open.

Razvan Preotu (Burlington) 1920f in Guelph.

Robert Bzikot (Conn) 1842f got his games in KW Oktoberfest Open (and Guelph).

Ralph Deline (Waterloo) 1897f KW Oktoberfest Open and the World Senior Championship.

Matthew Nicholson (Lively) 1959f, Andre Zybura (Kitch) 1987f, Jingle Kho (Miss) 1836f got their games last Labour Day.

Still one-tournament (3 games) short are John W. Chidley-Hill, Adam Cormier, Bill Peng, Alex H Chan, Bruce Dowling, Brendan Fan, and John Hall.

Also recently obtaining a rating has been Daniel Wiebe 1937f (Thanksgiving, Holidays, Reading Week)

And from the World Youth (as well as local events):  
Guannan Terry Song 1898f, Joseph Bellissimo 1820f, Mark Plotkin 1794f, and Yuanchen Zhang 1656f, Melissa Giblon 1555f

Some new players starting the process are:  
Tony (Juntao) Lin 2.5/8, David Jones (Trinidad) 2/5, Dante Zuniga 2.5/4, Greg Stavropoulos 1.5/4, Alexander Friedman (Burlington) 2/4, Geordie Derraugh 1.5/3, and Stanley Su 1/4.

With the Canadian Open being divided into sections like most weekend tournaments, there will be few opportunities for class players to get a FIDE rating.

### **Chess The Musical**

( Submitted by David Cohen )

In 2010, a new version of "Chess The Musical" began touring the United Kingdom. The Toronto Star's theatre critic, Richard Ouzounian, happened to be over there, and wrote a great review: 'Chess problem is solved at last' (2010.10.17, p.E4). He concluded by recommending that the show come to Toronto. Well, Mirvish Productions must have been reading his column - they've done it!

"Chess The Musical" will run during Sept.-Oct., 2011 at the Princess of Wales Theatre, Toronto:

<http://www.mirvish.com/shows/chessthemusical>

I've asked them for a few complimentary tickets in exchange for helping to promote the show in the chess community. (I don't know if we'll get them.) Anyway, I think it would be a great event to take in - and good for the chess community to show its support for such an attention getter for chess!

Mirvish Productions Group Sales offers a big discount on regular prices. Do you think you will attend a show? Would the Scarborough Chess Club (your Chess Club for others reading this) be interested to go together? Would you give up a chess night to do that?! Please share your thoughts so we can plan something together.

## **More Info on Casual Chess in the GTA and Beyond**

( by Erik Malmsten )

In [ SCTCN&V ] issue # 12-11 it was noted that chess is played in the Ellesmere and Neilson Tim Horton's and we were asked about other friendly chess stories. Of course, there are the players from the park at Queen and Church who have been playing this winter in the second floor food court at Yonge and Dundas. There was Raoul from Peru who would play for money outside the Eaton Centre.

There are many chess tables in Toronto's parks, but I don't know if any get used for chess. High Park Chess Club players may venture outside in warmer weather. People in the park east of Gerrard and Pape play Chinese chess (also found in a coffee shop on Broadview north of Gerrard, as well as outside the food court Spadina south of Dundas). When I visit the Reference Library there's usually somebody playing chess online (The library used to provide a chess set for going through chess books.) There is a chess board on the first floor of the North York Reference Library. There was a chess board in a falafel shop across from the Bloor cinema. There is a chessboard in a barber shop on Queen east of Broadview. For a few years there was a chess club in a coffee shop on Queen east of Beech. There is a chess set among the games at the Only Cafe on Danforth and Donlands. I don't know if anyone plays chess at the Snakes and Lattes games cafe on Bloor, west of Bathurst. Years ago I did encounter some regular playing in a donut shop at Pape and O'Connor.

Chess Institute of Canada sometimes has chess displays at street fairs and community events such as at the Wychwood Barns and at Kidsfest in the Yonge-Dundas Square. One year Chess 'n Math had chess at the huge Taste of the Danforth. Decades ago Roman Pelts used to give simuls in malls, as did Howard Ridout and other SCC members to promote the club. There was chess in a Scarborough library 30 years ago.

I like to checkout street chess players when I travel. Circa 1980 I visited Vancouver Island. Taking the bus from Victoria out to the west coast I was talking with a professor from Chicago who got excited to find another chess player next to him. We played during the long ride. Other passengers would go, "Ohh, there's a deer," But the prof never looked up. He also never won a game.

## **Hart House Reading Week Open**

( report posted by organizer, and SCC member, Alex Ferreira )

There were 106 participants in total, pretty evenly spread out between the 4 playing sections. Everything was decided in the last round.

### **U1600 Section:**

Alexandre Michelashvili took clear first with 5.0/6, ahead of fellow juniors Richard Chen & Yinshi Li, who finished tied for 2nd and 3rd.

### **U1900 Section:**

Tied for 1st and 2nd were Jayson Huang & Shafkat Ali.  
In clear third came junior Qiyu Zhou.

### **U2200 Section:**

Ahead of the favourites, Mike Ivanov snatched another victory at a Hart House tournament, clear 1st with 5.0/6.

Closely behind, tied for 2nd - 4th, were David Southam, Tyler Longo and Yelizaveta Orlova.

The vicious over-the-board Hart House trio composed of Geordie, Haizhou and Kit although performing respectably, had to settle for 4 points.

### **Open Section:**

A very strong section, saw IM Nikolay Noritsyn and Master Arthur Calugar share 1st place, with 5.0/6. Not without their challenges, Nikolay came back after a Round 2 loss to Yaaqov Vaingorten, to top off the tournament with a convincing Round 6 win over tournament surprise Rick Lahaye, visiting from the Netherlands. Arthur was the only player in the section without losing a game, fighting hard to the bitter end of every game, converting drawn games into wins, and ending Bator Sambuev's streak of 34 games without a loss, with black in Round 6.

Bindi Cheng finished clear 3rd with 4.5 points

Sharing the U2300 prize, with 3.5 points were Vladimir Birarov, Michael Kleinman & Kevin Wu.

### **Team Prize:**

Possibly the tournament where this category was most competitive, with half the teams being well in contention in the last round. In the end, there was a tie between 'Crazy Cats' (Shafkat Ali, David Southam, John Brown & Robert Bzikot) and 'Bator Up' (Bator Sambuev, Mike Ivanov, Roman Sapozhnikov & John Zhang).

Congratulations to all the winners!

### **Scarborough CC – Who Are We??**

*The SCC Newsletter Needs You – the SCC Member !!*

The SCC newsletter has an ongoing series published from time to time as we get volunteers called **Scarborough CC – Who Are We ??**, where we introduce to our subscribers, the members who make up SCC, the friendliest chess club in Canada !

We are looking for members who will **volunteer** to do a short chess profile of themselves for our newsletter series on SCC members. Many members have already

volunteered – response to the series has been excellent by readers – they are interested in who makes up our club. And even for members, it is great since we do not all get to know each other, given the time available in the evening, and the number of members we now have. You will also find that other members will approach you to discuss things they found interesting in your article – a great way to get to know some of the other members better.

. The profile article can be as short or as long as you like. We have a “ help sheet “ for you, that sets out a whole number of questions that will help you determine what you might write. We are looking for any members – seniors, juniors ( parents can help ), and the in-between adult members. We are a multi-cultural club reflecting Scarborough, and we have interesting stories to tell each other.

Just speak to Bob Armstrong, newsletter editor, at the club, or email me ( [bobarm@sympatico.ca](mailto:bobarm@sympatico.ca) ) if you are willing to help out the club in this way.

We look forward to continuing to publish the chess background and experiences of many more of our members. Look for our next installment !

### **Rick's Chess Trivia**

( questions/presentations researched by columnist Rick Garel,

former SCC Executive, former SCC member, Orillia CC President )

Last Issue's Chess Trivia was the **Question:**

When was the first official or authenticated correspondence chess game played ?

**Answer :**

The first authenticated correspondence games were between a Dutch army officer named Friedrich Wilhelm von Mauvillon (1774-1851) stationed at The Hague, and one of his friends from Breda, Netherlands in 1804. Mauvillon's 3 postal games (he won two and drew one) were published by him in a chess book in 1827.

**Bragging Rights Winner :**

SCC Member, Pino Verde, multiple winner on prior occasions, got the right answer – he gets this Issue’s bragging rights !

**Today’s Trivia Question** is:

What was the longest running postal chess rivalry?

You can use any resource available to answer the question ! Just find it fast and send it in as fast as you can, by e-mail, to Rick : [rickgarel@gmail.com](mailto:rickgarel@gmail.com) .

The first correct e-mail received wins, and gets bragging rights. Also, we will publish the honoured winner’s name in the next newsletter, along with a few details they provide as to their chess experience ( if they wish ), along with Rick’s researched answer.

Thanks for playing !!

Chess History is fun !!

Also write Rick if you have any chess trivia questions or presentations you’d like him to consider for his column. He will give credit to the author if he uses your suggestion.

Write Rick Garel : [rickgarel@gmail.com](mailto:rickgarel@gmail.com)

**Chess Trivia Quiz – 2010 Canadian Open**

( Answer will be given at end of this Issue )

**15. Whose nickname was “The Patriarch”?**

- a) Chigorin
- b) Tarrasch
- c) Steinitz
- d) Botvinnik

## **Congratulations Michael Song !!**

SCC junior, Michael Song, has recently become SCC's newest national master – on Wed., Feb. 23, his rating jumped over 2200 ( the master level ) to 2228 ! He is now the 5<sup>th</sup> highest rated player in the club. He is also # 1 ranked in the Under 12 group in Canada. Congratulations Michael !

## **SCC Jack Frost Swiss – First Tournament of 2011 !**

The first swiss of the New Year began on Thursday, January 6, 2011.- the Jack Frost Swiss. It was 7 rounds: January 6, 13, 20, 27, February 3, 10, 17, 2011.

The registration for this tournament was:

2000+ Section – 21

U 2000 Section – 31

U 1700 Section – 39

( NOTE: members have the right to play up a section if within 100 points of the higher section rating floor )

This total of 91 is right in line with the attendance in our first two tournaments of this season, in 2010 ( Howard Ridout – 91 players; Falling Leaves Swiss – 92 players ).

The winners after 7 rounds were ( this tournament proved very competitive, with our new 3-section format – all the sections had numbers of players tied for first, going into the last round ! ):

**2000+ section** – 1/2 - 5 pts. - . Master Michael Song - junior ; Expert Erwin Casareno

**U 2000 section** – 1/3. – 5 pts –Yakos Spiliotopoulos; Josh Sherman; Mario Moran-Venegas

**U 1700 section** – 1/2. - 5.5 pts. – Leonid Aghamalian; junior Derick Aghamalian

Games were collected each week ( the handing in of the white score sheet is mandatory, and members keep the yellow carbon sheet ), but no games of this tournament could be sent out to members in database format, nor published, until the tournament had concluded ( due to the policy adopted at the September 2009-10 SCC AGM concerning, score sheets, the games database, and the newsletter. If you are interested in finding out about this policy, just e-mail me at [bobarm@sympatico.ca](mailto:bobarm@sympatico.ca) and I will forward it to you. )

I and SCC member Ken Kurkowski volunteer to enter the SCC games each week into the tournament database ( it does not contain the games we will be publishing in our coverage of the tournament in the newsletter – these are the best games, and they have been held back for the newsletter ). I analyze or partly analyze a number of the games, and Ken does a few also from time to time.

.Here are some games from rounds 1 & 2.

In Rd. 1 in the 2000+ Section, junior Joe Bellissimo gave expert Alex Ferreira a very tough game, that was relatively equal for most of the game. Alex ( on left ),

trying to win, sacked the exchange to go into the ending. But it was still equal. But then in the ending, Joe faltered and made a losing move when he moved his K the wrong way. Here is their game ( Annotations by Bob Armstrong, using Fritz ):

In Rd. 2, in the U 2000 section, your intrepid editor, Bob Armstrong,

had a decent game going against Will Rutherford. But then I focused on my attack so heavily that I failed to notice I was losing a R! That left the only save being a mate. I did manage to win Will's Q, when he seemed to miss that it could be pinned by my R, but the merciless clock gave me no time to mate at the end. I was only saved by Will's most sportsmanlike offer of a draw ( he was about to be mated in a few moves), while I had one second left on my clock – needless to say I grasped the offer to my bosom with hoops of steel ! So I offered a draw. **42.Kg4?-+ - 11.14** Will thought about the offer a bit, but then moved. I don't think it was his intention just to flag me; I think he still thought the game was equal enough that he could still survive a long time yet. I threaten an immediate 44....Qh4 mate. A number of people were now surrounding the board, wondering if I'd mate before my time ran out ! **44.Rg3+!** Will thought long and hard about the situation now. He saw he was in trouble, and that a sac was the only way to stave off immediate mate. Now I think he intended to win by flagging me, since he was clearly lost on the board. **44...fxg3** I am up Q vs 3 P's **45.Kh3** [stretching the mate out a bit is 45.f4 Qxf4+ 46.Kh3 Qf3 47.e5 g2+ 48.Kh4 Qg4#]

**45...gxf2??-+** this is a bit slower, and I can't afford to be slow [45...Qh5+ 46.Kg2 Qxh2+ 47.Kf1 Qxf2#] **46.Kg2 Qf4** I had a bit more than a second left. **47.Kf1** in a spirit of SCC gentlemanly sportsmanship, with me having 1 second left, and about to flag and lose, Will offered me a draw, which I accepted just before my flag fell. - a desperate save, though I maybe could have mated in time with the correct move on move 45. It never occurred to me to pause the clock, call the TD, and claim a win based on mate on the board ( can you do that? ). It is mate **47...Nxe4 48.Nc7 Nd2+ 49.Ke2 f1Q# 1/2-1/2**

In answer to my query as to what I could have done in the dying seconds of the game, to claim a win, SCC member Ken Kurkowski sent me these following two comments:

“ With the relatively fast G90 time control used at Scarborough Chess Club, issues regarding time trouble will frequently arise. Many players, especially novices, may not be aware of how the Laws of Chess deal with these situations. The following is from the FIDE Handbook:

### **Article 10: Quickplay Finish**

10.1 A ‘quickplay finish[*commonly known as ‘Sudden Death’ in Canada*]’ is the phase of a game when all the (remaining) moves must be made in a limited time.

10.2 If the player, having the move, has less than two minutes left on his clock, he may claim a draw before his flag falls. He shall summon the arbiter and may stop the clocks. (See Article 6.12.b)

- a. If the arbiter agrees the opponent is making no effort to win the game by normal means, or that it is not possible to win by normal means, then he shall declare the game drawn. Otherwise he shall postpone his decision or reject the claim.
- b. If the arbiter postpones his decision, the opponent may be awarded two extra minutes and the game shall continue, if possible in the presence of an arbiter. The arbiter shall declare the final result later in the game or as soon as possible after a flag has fallen. He shall declare the game drawn if he agrees that the final position cannot be won by normal means, or that the opponent was not making sufficient attempts to win by normal means.
- c. If the arbiter has rejected the claim, the opponent shall be awarded two extra minutes time.
- d. The decision of the arbiter shall be final relating to (a), (b) and (c).

NOTE: The CFC has supplemented the FIDE handbook with additional stipulations for rapidplay and blitz games, but not for Sudden Death finishes to classic time controls. The question here is obviously, what is “normal means”? My interpretation is that in general, if a player is making moves only to flag his opponent, as opposed to trying to win (via e.g. advancing a pawn, attacking the king or a more valuable piece) then his opponent’s draw claim should be upheld. Of course the TD will have to use his/her discretion, perhaps taking into account the strengths of the players. Let’s consider some specific cases: Player A has less than two minutes left, and his opponent, player B

- a) Has no possible way of delivering mate (e.g. K and N vs K).
- b) Has no way of forcing mate (“theoretical draw”), but could do so if the other player blunders (e.g. K, N + N vs K)
- c) Is down serious material without compensation or ‘cheapo’ potential.

In case a) I believe it's an automatic draw with the TD required only in cases where a player disputes that no mate is possible. Case b) is a bit discretionary, but if the weaker side quickly demonstrates correct play, then I think it should also be drawn. Case c) is a bit trickier. Should lack of realistic winning chances be enough to declare the game drawn, regardless of whether B claims he's trying to win?

Finally, we would do well to remember Scarborough Chess Club's slogan "Friendly Chess Since 1960". In a recent game at the Club, one player was up a whole Queen, with a passed pawn on the 7<sup>th</sup> and mate coming in a couple of moves, but only two or three seconds left on his clock. His opponent offered a draw, which was immediately and gratefully accepted. Not exactly a "by the book" finish, but certainly a sporting one."

Ken's subsequent note was:

"I've just been reading the latest "An Arbiter's Notebook", a regular column in [www.chesssafe.com](http://www.chesssafe.com). It deals with yet another flag-fall scenario. In the example discussed, Black flags, but could give mate next move. Therefore, according to columnist IA Geurt Gijssen, it is a draw, but ONLY because Black has no other legal moves besides the one giving mate! In other words, if he has another possible move, even if it's a ridiculous blunder, White would win on time. An interesting point!

So, as I understand Ken's opinion, had I flagged, even though there was a forced mate on the board, I would have lost because I had other moves I might make which would not lead to mate. It seems Ken also thinks that if, before I flagged, I had paused the clock, called the TD, and claimed a draw, I had chances of being awarded it. In his view, it seems, Will had no "realistic" chances to win. However this may not be so clear. Although Will was about to be mated, he still had an N and 6 pawns left. Could he argue he still had "realistic" chances to win?

What do you think I could have done, and what would have been the final outcome?

In Rd. 2 of the U 2000 section, a very good game was played between veteran Jim Paterson

and junior Stanley Su. Now many of us think of good games to play over as having lots of tactical fireworks. But there are also many players who appreciate a good solid positional struggle. So here is one – Jim goes up 3 P's at one point, but Stanley brings it back down to one in a stubborn defence. But Jim does triumph. Here is the game ( Annotations by Bob Armstrong, using Fritz ):

For you positional game lovers, here is another one – though substantially out-rated ( by almost 300 pts. ), junior Phillip Liang gave new junior Tan Guo a very tough game, at one point having a winning advantage and being up a P. ## SCC Club Championship

There are three sections to the SCC Club Championship.

The Championship Section is a 10-player round robin of the 9 highest rated club members registering, plus the winner of the prior year's Open Reserves Section ( or the next place finisher in case the winner qualifies by rating or is not playing ). Here are the players this year ( Unfortunately, WIM Yuanling Yuan ( 2352 ), last year's champion, was unable to play this tournament, to defend her title ) :

1. Master Rune **Pedersen** ( 2303 )
2. Master Andrei **Moffat** ( 2248 )
3. Master Josh **Guo** ( 2240 )
4. Master Michael **Song** (2228 )
5. Master John **Hall** ( 2200 ) – past club champion
6. Andrew **Picana** ( 2182 )
7. Erwin **Casareno** ( 2165 ) – past club champion
8. Ilyas **Nasirov** ( 2142 )
9. Dave **Southam** ( 2102 )
10. Pepin **Manalo** ( 1762 ) – Reserves Qualifier

9 players are over 2100 – the top section includes 5 Masters! The current average rating of the 9 by rating is 2201! This may well be the strongest club championship in Canada.

The following won their games in Rd. 1, played Feb. 24 – Pedersen, Moffat, Hall, Casareno ( Guo-Southam postponed ).

The rest of the club plays in 2 swiss sections – the Open Reserves; the U 1700 Reserves. In the Reserves, members can play up a section if they are within 100 points of the higher section rating floor.

38 members have registered for the Open Reserves – it is headed by 4 experts – Bryan **Lamb** ( 2145 – past club champion ); Alex **Ferreira** ( 2081 ), Kevin **Wu** ( 2080 ) and David **Krupka** ( 2035 ). All won their first round games, except Bryan who took a bye.

44 members have registered for the U 1700 Reserves.

It is interesting to note that the mid-line for the club is 1600. We have 48 players over 1600, and 44 under 1600 ( since all the 1600's have elected to play up ). And over half of the U 1600's are juniors.

The total registrants are 92. This is right in line with our first 3 tournaments of this 2010-11 season, which averaged 91 players.

Games are collected each week (the white score sheet is handed in; the player gets the yellow carbon ) – this is mandatory on all members. But there will be no games of this tournament sent out to members in database format, nor published, until the tournament has concluded ( this is the SCC policy concerning score sheets, the games database, and the newsletter. If anyone is interested in getting a copy of this policy, just e-mail me at [bobarm@sympatico.ca](mailto:bobarm@sympatico.ca) )

SCC member Ken Kurkowski and I, as club volunteers, enter the SCC games each week into the tournament database, which, as was said, will be sent out to members

when the tournament is concluded ( it does not contain the games we will be publishing in our coverage of the tournament in the newsletter – these are the best games, and they have been held back for the newsletter ).I analyze or partly analyze a substantial number of the games, and, from time to time, Ken also analyzes a few games for the newsletter and/or the database.

### **Express Your INNER Self !!**

Got a chess issue that has been bothering you for a while? Got a favourite chess topic that you've always wanted to share with other chess players? Read something in SCTCN&V that you profoundly agreed with, or maybe ( surely not ! ) disagreed with?

SCTCN&V may be for you. We are very open to publishing freelance articles from our readers – David Cohen, Erwin Casareno and Erik Malmsten, among others, have presented us with material in the past. We have a columnist, Rick Garel. Maybe there's a writer inside just waiting to get going !

Also, if you would like us to cover some topic, send us your idea, and we'll see if we can write something up on it.

This may be the chance you've been waiting for ! Want to express your inner self???
