### **Carlsen/Aronian Lead 2008 Corus, Netherlands**

This is the first major tournament of the year, and is a 14-player round robin with average rating of 2742 ( FIDE Category 20 ) – Jan. 11 – 27. The players are:

Name	Country	Rating	Position	
GM Viswanathan Anand	IND	2799	1-2	<a href="#">Biography</a>
GM Vladimir Kramnik	RUS	2799	1-2	<a href="#">Biography</a>
GM Veselin Topalov	BUL	2780	3	<a href="#">Biography</a>
GM Shakhriyar Mamedyarov	AZE	2760	6	<a href="#">Biography</a>
GM Peter Leko	HUN	2753	8	<a href="#">Biography</a>
GM Vassily Ivanchuk	UKR	2751	9	<a href="#">Biography</a>
GM Levon Aronian	ARM	2739	10	<a href="#">Biography</a>
GM Boris Gelfand	ISR	2737	11	<a href="#">Biography</a>
GM Teimour Radjabov	AZE	2735	12	<a href="#">Biography</a>
GM Magnus Carlsen	NOR	2733	13	<a href="#">Biography</a>
GM Michael Adams	ENG	2726	15-16	<a href="#">Biography</a>
GM Judit Polgar	HUN	2707	22	<a href="#">Biography</a>
GM Pavel Eljanov	UKR	2692	27	<a href="#">Biography</a>

After 3 rounds, Carlsen and Aronian have 2 ½ pts. and are the co-leaders. In third place alone is Radjabov, with a win and 2 draws. The “ new “ generation of players are flexing their muscles. Not what was expected in a field with Anand, Kramnik and Topalov ! But it is still early in the tournament – the “ establishment “ players should not yet be counted out on this one.

### **2nd Association of Chess Professionals World Rapid Cup in Odessa, Ukraine January 4-7, 2008.**

This was a knockout event with 16 players participating:

Ivanchuk, Vassily ( Ukraine )  
Grischuk, Alexander ( Russia )  
Gelfand, Boris ( Israel )  
Radjabov, Teimour ( Azerbaijan )  
Shirov, Alexei ( Spain )  
Inarkiev, Ernesto ( Russia )  
Svidler, Peter ( Russia )  
Karpov, Anatoly ( Russia )  
Savchenko, Boris ( Russia )  
Karjakin, Sergey ( Ukraine )  
Jakovenko, Dmitry ( Russia )  
Najer, Evgeny ( Russia )  
Polgar, Judit ( Hungary )  
Drozdovskij, Yuri ( Ukraine )  
Eljanov, Pavel ( Ukraine )  
Shabalov, Alexander ( USA )

2007 World Cup Finalist GM Alexei Shirov was eliminated by GM Inarkiev in Rd. 1 . 12<sup>th</sup> World Champion, Karpov, and the world’s strongest female player, Polgar , were also knocked out in the first round.

The semi-final match-up was:

Radjabov - Jakovenko  
Grischuk – Karjakin

In the finals, Radjabov defeated Grischuk.

### **Winning Streaks in Chess**

( Written and copyright 2008 by David Cohen )

With the New England Patriots completing a perfect season (16-0) in the National Football League, sports reporters naturally compare their feat to winning streaks in other sports. Not surprisingly, in North America chess gets left out. So let's correct that here with a look at the perfect accomplishments of three players: D. Abraham (Abe) **Yanofsky**

of Winnipeg; Laszlo (Leslie) **Witt** of Hungary, Montreal and Toronto; and the American, Robert (Bobby) **Fischer**.

#### D. Abraham **Yanofsky**

Abe Yanofsky put up a picket fence, which is how a row of ones for victories looks on the cross-table, to win the Canadian Closed Championship with a perfect score of 11-0 - not once, but twice!! In 1943, New Brunswick hosted its first national championship, as Yanofsky, serving in the Canadian Navy during World War Two, joined players from Quebec to meet the best of the Maritime provinces at Dalhousie. Montrealer Charles Smith put up the most resistance with their last round battle for first place, only falling into a combination on move 56.

Amazingly, at Montreal in 1959, IM (and future GM) Yanofsky duplicated his feat against a stronger field, including IM Frank Anderson, that took their best shots at him.

#### Laszlo **Witt**

In 1962, Laszlo Witt won the 4th Canadian Open Chess Championship with a perfect 9-0! Here's a battle against Mark Schulman of Winnipeg, recorded in the tournament book edited by Ron F. Rodgers.

**Robert Fischer**

Bobby Fischer equaled Yanofsky's feats by winning the 1963-4 USA Chess Championship with a perfect 11-0. In Round 3, he beat IM (and future GM) Robert Byrne with Black in 21 moves. In Round 10, he beat GM Pal Benko, again in 21 moves, with a famous demonstration of the interference tactic on move 19.

Bobby Fischer also set the record for consecutive victories in Grandmaster competition, with 19 wins in a row in 1970-1. During the last six rounds of the Palma de Mallorca Interzonal competition, part of the World Chess Championship cycle of qualifications, Fischer rolled over Rubineti, Uhlmann, Taimanov, Suttles, Mecking and Gligoric. His games were full of energy and initiative. Against Canada's Suttles, notice how he delays the recapture of a pawn by five moves, using the time to attack and develop simultaneously (rather than play 24... Qxf4).

Fischer then crushed Mark Taimanov 6-0 in the quarter-finals of the next stage of the World Chess Championship, the Candidates Matches, held in Vancouver in 1971. In the semi-finals, he similarly crushed Bent Larsen 6-0. In the finals, he beat Tigran

Petrosian in the first game of their match, before Petrosian finally halted Fischer's streak with a victory in Game 2. Fischer went on to beat Petrosian in the match, and followed with a successful challenge for the title, against Boris Spassky in 1972.

### 2007/8 SCC Club Championship Starts

On Jan. 3 SCC started its 2007/8 Club Championship. It is in 2 sections again this year. 51 players registered.

The top section A is a 10-player 9-round round robin. It is composed of the top 8 rated players who registered, plus the first and second place winner in the 2006/7 Club Championship Reserves. Playing this year are a master, 4 experts and 5 A players: Master Bryan Lamb; junior girl expert Yuanling Yuan, expert John Hall; expert Alex Ferreira; expert Erwin Casareno; A player Rick Garel; A player Randy Moysoski; A player Yibing Fan; A player Bob Armstrong ( 1<sup>st</sup> - Reserves ); and A player Josh Sherman ( 2<sup>nd</sup> - Reserves ).

The other 41 members play in a one section, 10 round swiss. The first and second place finishers earn the right to play in the Championship Section for the 2008/9 Club Championship.

After 2 rounds, the following players lead:

Section A :

The co-leaders, undefeated, are John Hall, and your intrepid editor ( bottom-rated in the section ! ), Bob Armstrong, with 1 ½ pts.. But it should be noted master Bryan Lamb has only 1 pt., but has an outstanding game. Randy Moysoski has 2 outstanding games. So they could theoretically get 2 pts. and be in the lead. As well Yuanling Yuan and Rick Garel, each have ½ pt. and 1 game outstanding, so they could possibly tie us for the lead.

Section B:

Leading with a perfect score, alone in first, is junior Sam Arfin

In Rd. 1, in Section A, John Hall, in a King's Indian Defence, sacked 2 centre pawns to open lines to Yuanling Yuan's Black King, had a winning advantage, and then sacked a R to get a perpetual and a draw. Here is their game ( Annotations by Bob Armstrong, using Fritz ):

In Round 1 in the Reserves, Tom Muir managed to go up a P when Marc Ben-Avraham inadvertently left it hanging. He was then heading for an ending up a P, when Marc unfortunately blundered into a knight fork. Here is their game ( Annotations by Tom Muir ):

## Muir, T (1685) – Ben-Avraham, M (1460) [D35]

SCC Club Championship ( Reserves ) Toronto (1), 03.01.2008

158MB, Fritz10.ctg, TOM-8A899E70138 **1.d4 d5 2.c4 e6** The Main Line second move. **3.Nc3** The 'most aggressive' third move for W in the Main Line. **3...Nf6 4.cxd5 exd5 5.e3** last book move **5...Bf5 6.Nf3** Considered Bd3 but didn't see a real rationale for trying to exchange Bs. **6...Be7 7.Be2 0-0 8.0-0 c5** Diagram

Position after 8...c5

Considered b3 to prevent c4 but felt this weakened Nc3 and blocked my Q. In its favour, b3 would have allowed the c1B to develop. **9.dxc5 Bxc5 10.Qb3** Considered Nd4 but this would have potentially lead to an isolated Pd4. Qb3 created a new threat against b7 and a following Rfd1 would result in three pieces attacking d5 – I was thinking about how to 'pile on' the pieces attacking d5. **10...Qb6** Diagram

Position after 10...Qb6

I immediately saw the opportunity to go up a pawn with Nxd5 and potentially to double B's Ps in front of its K. [ 1.11 Fritz 10: 10...Qd7 11.Rd1 Be6 12.Qc2 Rc8 13.a3 Bd6 14.b3 Nc6 0.32/15 ] **11.Nxd5 Qxb3 12.Nxf6+ gxf6 13.axb3 Nc6** Diagram

Position after 13...Nc6

Positional assessment: W is up a P; B's doubled Ps are more troublesome than W's because they are in front of B's K; W controls the 1/2 open a file; the d file is opened but not controlled; B's Bs are more actively developed than W's Bs. From this I concluded I needed first to develop my dark B and then try to occupy the open e file. **14.Bd2 Bb4 15.Bc3** A nice threat against f6 forcing either a 'wasted' K move or the undoubling of my b file pawns with ...Bxc3; bxc. **15...Kg7 16.Ra4** Diagram

Position after 16.Ra4

Also considered Bc4 and Ne4 (to start trading off pieces); either would have been better than Ra4; idea behind Ra4 was the threat of moving the R across the 4th line toward the open black K, and/or doubling Rs on the a file; I played a tactical move rather than a strategic/positional move too quickly, before compiling what I set out to do after my positional review: better develop my Bs

and occupy the open d file. **16...a5 17.Bc4 Rab8 18.Raa1** Here I decided to just get right at undoing the poor Ra4 move. I also saw the danger of playing Rd1 which would be followed by the double attacking move Bc2. **18...b5** Diagram

Position after 18...b5

**19.Bd5** I liked this move! At this point I decided to get on with exchanging pieces to magnify my advantages. I expected black to play Ne7 and foresaw the exchange of all Bs and the doubling of blacks Q-side pawns on the b file: ...Ne7, Nd4; Bxb4, axb4; Nd4, Nxd4 (likely now that f3 is anew escape square for my light B); Nxf5+ etc. **19...Ne7 20.Bxb4 axb4 21.Nd4 Nxd5 22.Nxf5+ Kg6 23.Nd4** Also considered Nh4+ etc. but ultimately saw the check as 'empty' and the ending N position on f3 rather than d4 (its best square) as simply losing a tempo. **23...Rfc8 24.Rfc1 Rc7 25.Rxc7** Begin liquidating the remaining pieces counting on an end game win based on the K-side pawn majority and structure. **25...Nxc7 26.Nc6** Black blunders. **26...Rc8** [ 9.97 Fritz 10: 26...Re8 27.Kf1 Nd5 28.Rc1 Kg7 29.Nd4 Re5 30.h3 Kg6 31.g4 h5 32.Rc8 2.14/17 ] **27.Ne7+ 1-0**

In the Reserves in Rd. 2, “ sac-a-piece “ Pino Verde cast a spell on David Farrant – he pulled two of his patented sacs, in a row ( both unsound ! ), and David refused to accept them ! The win left Pino a ½ pt. out of first place.. Here is their game ( Annotations by Bob Armstrong, using Fritz ):

## **Our Readers Write !: SCC Club Championship Format Criticized !**

SCC member Will Rutherford came out initially to put his name forward for the Club Championship. But he did not make the Championship section with his 1820 rating. He then withdrew his name and said he wouldn't play. Now he has written his opinion on why he is uncomfortable with the current format. Here is what he has to say:

“ Partly I [ Will Rutherford ] stayed out of this tournament because of being busy with a number of things. However, I am also uncomfortable with the format of the tournament and wouldn't have enjoyed competing.

The first problem is that the structure of the tournament comes across as elitist. There is a single limited entry championship section and everyone else is thrown into steorage.

The second problem is that the resulting title of Club Champion is dubious. Many people in the championship section come from outside and only compete in this one tournament [ Ed.: Will is not factually correct here – all players in the Championship Section have played in both Fall tournaments from Sept. to Dec., except Erwin Casareno, who played only part of the Fall Swiss : Bryan Lamb, Yuanling Yuan, John Hall, Alex Ferreira, Rick Garel, Randy Moysoski, Yibing Fan, myself ( Bob Armstrong ), and Josh Sherman ], protected from the rest of the club. There is no requirement of previous participation in club tournaments [ Ed. : this is true – to play, a new member only has to take out a 6-month membership ]. So really the trophy goes out to someone who is champion of that one section of the tournament, not really a champion of the club.

To set this up as a proper club championship, and to make it fair and interesting to ordinary club members, it really ought to have one of two formats:

[A] A big single-section Swiss. Everyone has a shot at the title, and the winner truly has to prove his strength against the field.

[B] The entire tournament is divided evenly between multiple round-robin sections, based on rating range. The winner of each section gets a trophy for his group.

Format [B] is how they used to do it in the SCC back in the Porter Collegiate days. “

What do you think of Will's observations and suggestions? Responses to him will be published in the next newsletter.
